- Farrell, C.** (2022). *Exploring Dendrobium Section Rhizobium*. Presented at the 22nd Australian Orchid Conference and Show Logan, QLD, September, 2022.

Creative Works

Through my position at Queensland Ballet I participated in the creation, planning, delivery and facilitation of many programs, for populations such as children under 5-years, individuals over the age of 60-years, individuals diagnosed with Parkinson's Disease, and those living in rural and remote areas. However, my most detailed contribution was the development of the *Limitless Leaps* program in association with Deakin University. This program was specifically designed to be inclusive and accessible for children diagnosed with Autism Spectrum Disorder.

Godber, M. & **Farrell, C.** (2019). *My Dance Story*. Brisbane: Queensland Ballet.

Godber, M. & **Farrell, C.** (2019). *Limitless Leaps: a program for children with Autism Spectrum Disorder and associated developmental diagnoses*.

Farrell, C. & Godber, M. (2019). *Limitless Leaps: curriculum teaching document to inform inclusive practice for students of all abilities to engage in ballet*.
